

Twin-master Chain Actuator

Particularly suitable for opening domes and very large windows, eliminating the problem of stability.
Electric actuator with two double link chains with stainless steel pivots.
Equipped with an electronic circuit to control the cut out for the two motors.
Minimum window height, 800mm. For smaller windows the actuator will need to be fitted with swivel brackets.
Standard colour: White.
Available, at extra cost, in black, silver and sprayed to any specific RAL colour.

Technical Data:

| | |
|-----------------------------|--------------------|
| | Twin Master |
| Voltage supply: | 24Vdc +/- 10% |
| Force: | 700N |
| Stroke: | 380mm |
| Absorbed current: | 2A |
| Loadless translation speed: | 12 mm/s |
| Protection: | IP 44 |
| Time rating: | 50% |
| Safety stop: | Electronic |

The actuators are tested one by one and periodical endurance tests (10,000 cycles) are carried out.
