

Ulysses linear actuator

Compact actuator with good weight lifting capability for its size.
Load transmission by rigid spindle.
Noiseless operation.
High protection from atmospheric agents.
Front or back fixing possibility.

Technical Data:

Voltage supply:	24Vdc +/- 10%
Thrust force:	300N
Stroke:	180/300mm
Absorbed current:	1A
Loadless translation speed:	10 mm/s
Time rating:	50%
Protection:	IP65
Safety stop:	Electronic

Ulysses
