

School fitted with Clearline manual system by Kongsberg

Chain Opener

The inconspicuous opener features a fully retractable chain made in Stainless Steel with chain lengths of 250mm and 400mm, fitted with a quick release window attachment. The all-metal chain opener has a high resistant polyester powder coated finish with a full range of colours on request.

Screwjack

A mechanically irreversible action allows the screwjack to be utilised for heavy applications where its design enables a considerable reduction in load on both the window gear and the operator.

Locking Opener

Designed for fall back bottom hung windows this opener is designed with economy in mind yet still retains the benefit of remote control.

Operators

Mini

The smallest operator designed for single or multiple applications with the spent travel tube sheathed and wall mounted.

Handle Length 100mm
